

EXPERIENCES WORTH KNOWING

Our Story: HumanNature A Regenerative Retreat with David Abram and Friends October 1-4, 2017

Join us in the Catskills for an extraordinary several days with internationally acclaimed cultural ecologist and philosopher David Abram and our colleagues working in regenerative design and story. This retreat is for makers in the design and building community and inspired dreamers. If you are seeking to understand the deeper connections the natural world and the work – both vocation and avocation – that you do, this is for you. Our Story: HumanNature is an Essence Project from 7group and Spillian.
