**By Email:** masonryseminar@gmail.com **By Fax:** (804) 918-2260

If emailing, please feel free to just provide your name, AIA number (if applicable), company, and contact info. You need not scan.

## Session One

### **“Essential Masonry Wall Components”**

*Presenter: Darryl Kegley, York Building Products*

A large issue in masonry design is the compatibility of the various wall components to ensure a durable system. An often overlooked component are anchors and their integration with wall reinforcement and insulation. We will examine the nuances with various masonry veneers and substrates. 1 LU/HSW

## Session Two

### **“Troubleshooting Masonry Construction”**

*Presenter: Steven Long, Independent Manufacturing Representative*

An overview of procedures for identifying and preventing problems, and maintaining and restoring the appearance and functionality of masonry and the masonry-veneer building envelope. 1 LU/HSW

## Session Three

### **“Terrazzo: The Original Sustainable Floor”**

*Presenter: Cameo Morningstar, East Coast Regional Sales Manager for Terrazzo & Marble Supply Companies*

The program will give a thorough overview of terrazzo flooring, including a review of both the epoxy and cement systems. The topics of special detailing, installation sequence and specifications will all be examined and discussed. Through the use of numerous photo images, the creative design options of terrazzo will be illustrated to ensure the designer and architect get the desired results for their terrazzo flooring installations. 1 LU/HSW

## Session Four

### **“Components of Stone/Masonry Repair ”**

*Presenter: Larry Burkhardt, Technical Market Manager for TTC Materials*

This course focuses on the history of composite repair and the lessons learned since the 1970s with composite repair projects. Specifiers will be provided with the information needed to specify repair products and methods to maximize the longevity of the repairs. 1 LU/HSW

## **MCACP’s “Cram Session” Masonry Seminar**

is a open to architects, designers, engineers, MCACP members, and lead facility representatives. Please feel free to share this information with appropriate colleagues.

Each presenter will be using his/her AIA/CES form for submission to the AIA. Please be sure to have your AIA number with you to ensure proper credit for the courses. If you are not registered with the AIA, the MCACP will provide you a “Certificate of Completion” for each session to keep with your records. These may be mailed after the event.

*You need not attend all sessions to participate in the seminar!*
